### PROFESSIONAL SUMMARY

Hi I'm Marco and I'm a Computer Engineer.

In December 2015 I graduated in Engineering and Computer Sciences in Bologna at Unibo. I decided to start this journey thanks to my passion for IT. Passion is different from knowledge, so I decided to become a professional. Most of the people around me didn't believe I could do that, but I made it, and this is my best personal success. During my university years, I have acquired complete knowledge of the world of Information Technology, but above all, I have learned to work under pressure and face the new challenges I had the chance to meet. Now I have the technical skills to work in the field I love and, most importantly, a solid personal background made up of the sum of experiences I had during these years.

### WORK EXPERIENCE

#### SENIOR MOBILE DEVELOPER

01/2022 – Present

Capgemini Engineering Spa
